Index Volume 52, 1996

Editorial Notice 199

Survey Papers

Coonce, H.B.: Permutable functions 201

Járai, A., Székelyhidi, L.: Regularization and general methods in the theory of functional equations 10

Rätz, J.: On Wigner's theorem: Remarks, complements, comments and corollaries 1

Székelyhidi, L., see Járai, A. 10

Research Papers

Akpan, E.P.: On the ϕ_0-stability of functional differential equations 81

Baker, J.A.: On a functional equation of Luce 302

Baron, K., Simon, A., Volkmann, P.: On functions having Cauchy differences in some prescribed sets 254

Barry, P.J.: Properties of functions in an auxiliary spline space 72

Brzdek, J.: On the Baxter functional equation 105

Cooper, J., see Donovan, D. 157

Domsta, J.: A limit formula for regular iteration groups 116

Donovan, D., Cooper, J.: Critical sets in back circulant latin squares 157

Dunham, C.B., see Zhu, C.Z. 313

Fochi, M.: D'Alembert's functional equation on restricted domains 246

Forti, G.L., Paganoni, L.: A system of functional equations related to plurality functions. A method for the construction of the solutions 135

Gawęt, B.: Some functional inequalities and their Baire category properties 55

Hongan, M.: On a theorem of J. Vukman 112

Kahlig, P., Matkowska, A., Matkowski, J.: On a class of composite functional equations in a single variable 260

Lester, J.A.: Triangles I: Shapes 30

Lester, J.A.: Triangles II: Complex triangle coordinates 215

Lindner, C.C., Penfold Street, A.: Simple minimum coverings of K_n with copies of $K_4 - e$ 284

Matkowska, A., see Kahlig, P. 260

Matkowski, J., see Kahlig, P. 260

Paganoni, L., see Forti, G.L. 135

Penfold Street, A., see Lindner, C.C. 284

Simon, A., see Baron, K. 254

Škapin-Rugelj, M.: Iteration of a quaternionic quadratic family 180
Volkmann, P., see Baron, K. 254

Corrigendum and Addendum

Zhu, C.Z., Dunham, C.B.: Correction to the paper *Continuous dependence of the local strong unicity constant on domain* 313
